THE PLATFORM

ONE PLATFORM SHARED OPERATIONAL CONTEXT

VETRA COMMAND brings secure communications, field intelligence, mapping, and command coordination into one agency-controlled environment.

ILLUSTRATIVE PRODUCT AND ENVIRONMENT VISUAL

COMMUNICATE

Connect field personnel and command through mission-scoped voice, messaging, and files.

UNDERSTAND

Bring incident reports, captured media, and location into a shared operational view.

COORDINATE

Route information to assigned teams and authorized response partners.

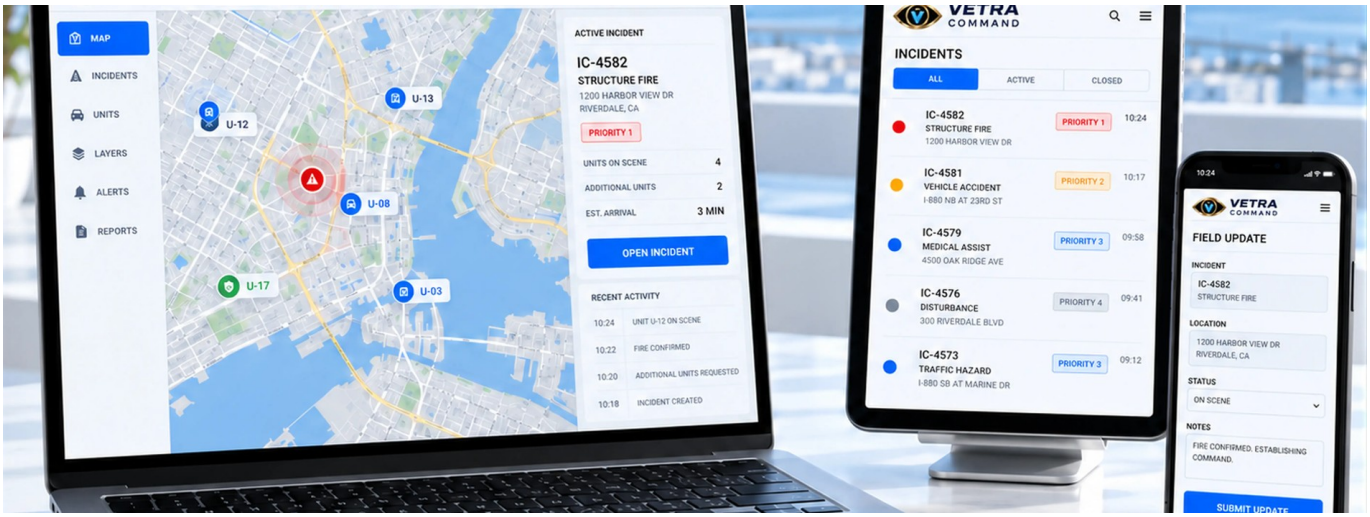

DOCUMENT

Retain report context and operational activity for review and reporting.

ONE CONNECTED ECOSYSTEM

FROM FIRST ALERT TO FINAL REPORT

Keep the scene, the response team, and the command environment connected throughout the operational workflow.

ILLUSTRATIVE PRODUCT AND ENVIRONMENT VISUAL

01 START THE SHIFT

Agency invitations, assigned groups, check-in, and on-duty visibility establish the workspace.

02 CAPTURE THE CONTEXT

Incident and observation reports associate identity, location, timestamps, and in-app media.

03 COORDINATE THE RESPONSE

Designated channels and priority alerts connect field personnel, supervisors, and partners.

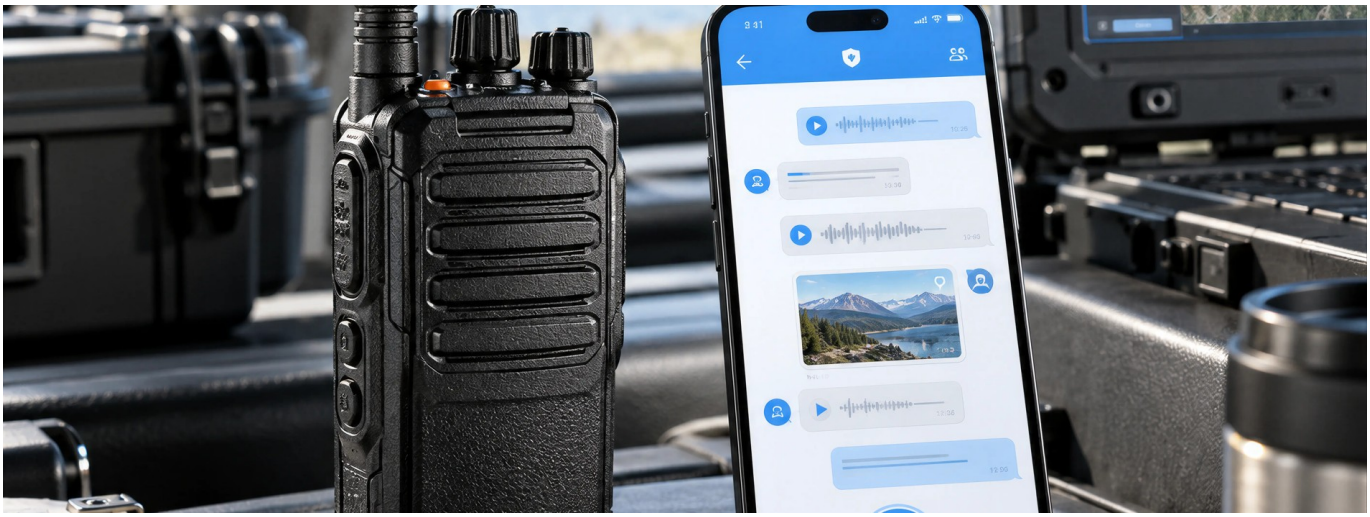

04 REVIEW THE RECORD

Shift records and incident history support after-action review and operational reporting.

COMMUNICATION CORE

THE RIGHT CHANNEL FOR EVERY TEAM

Keep voice, messages, and operational files together in conversations aligned with mission responsibilities.

ILLUSTRATIVE PRODUCT AND ENVIRONMENT VISUAL

ENCRYPTED MESSAGING

One-to-one, group, agency, and joint-task-force conversations.

SECURE PUSH-TO-TALK

Device, group, and command-to-field voice coordination over connected networks.

VOICE NOTES & DEBRIEFS

Voice notes and field debriefs associated with operational context.

CONTROLLED FILE SHARING

Share reports, directives, maps, and floor plans with authorized personnel.

FIELD INTELLIGENCE

CAPTURE THE SCENE KEEP THE CONTEXT

Give command structured information from the people closest to the event.

ILLUSTRATIVE PRODUCT AND ENVIRONMENT VISUAL

SHIFT ACCOUNTABILITY

Check-in, check-out, on-duty status, and personnel visibility.

STRUCTURED REPORTING

Incident, violation, and observation forms with authorship, time, and location.

PHOTO & VIDEO

In-app capture and supported phone-camera or body-worn streams for authorized teams.

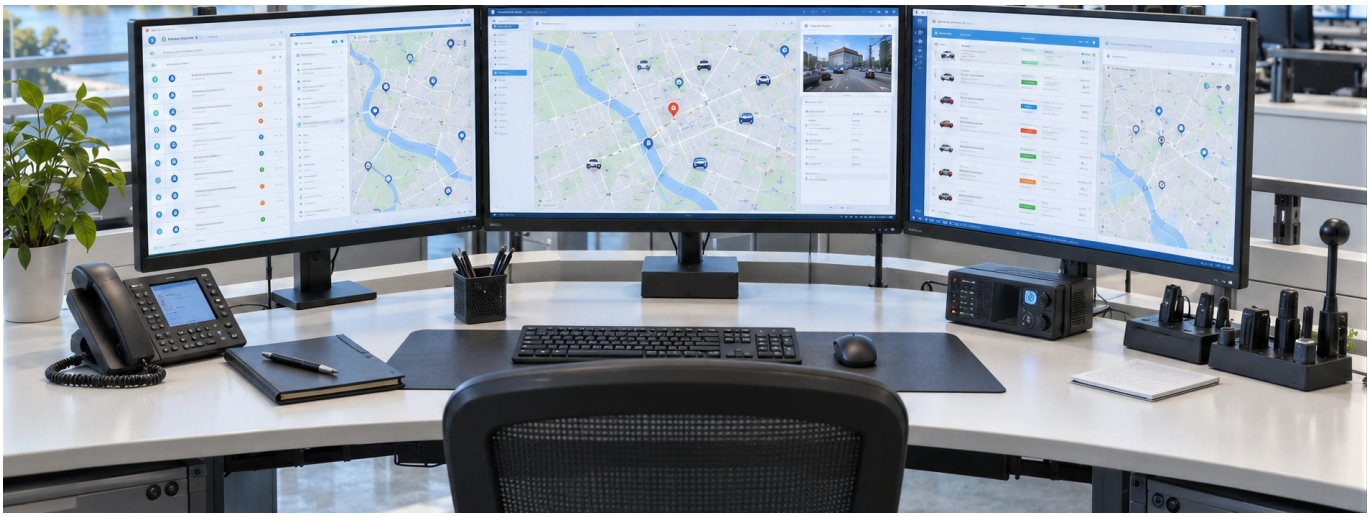

SOS & WATCH ALERTS

Distress signals with GPS context and notifications to assigned responders.

COMMAND OPERATIONS

ONE OPERATION A SHARED VIEW

Bring teams, incidents, and response activity into a common operating picture with role-based visibility.

ILLUSTRATIVE PRODUCT AND ENVIRONMENT VISUAL

OPERATIONS DASHBOARDS

Monitor active events, personnel, and operational status.

CONFIGURABLE VIEWS

Align layouts with supervisors, operators, and command responsibilities.

MISSION GROUPS

Organize channels around units, geography, departments, and temporary events.

PRIORITY COMMUNICATIONS

Distribute emergency broadcasts and scoped notifications to designated teams.

LOCATION INTELLIGENCE

LOCATION WITH OPERATIONAL CONTEXT

Understand activity across jurisdictions, sites, and facilities through connected mapping and incident information.

ILLUSTRATIVE PRODUCT AND ENVIRONMENT VISUAL

LIVE GPS POSITIONING

Location context for connected personnel, vehicles, and response assets.

GEO-FENCED ZONES

Configured entry, exit, and dwell alerts within operational boundaries.

INCIDENT MAPPING

View event locations, SOS signals, and developing activity.

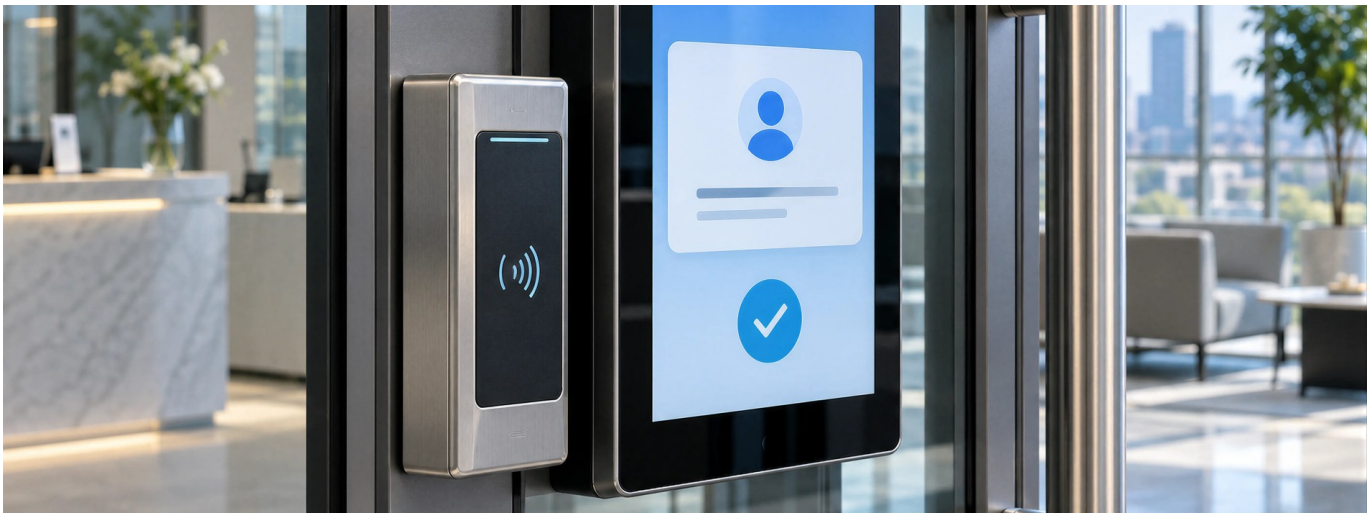

FACILITY VISUALIZATION

Scope building and floor context to support interior response coordination.

SECURITY & GOVERNANCE

CONTROLLED ACCESS TRACEABLE ACTIVITY

Align workspace visibility and information handling with agency roles, assignments, and operational policies.

ILLUSTRATIVE PRODUCT AND ENVIRONMENT VISUAL

IDENTITY & ACCESS

Administrator-managed invitations and role-based visibility within authorized workspaces.

PROTECTED COMMUNICATIONS

Encrypted voice, messaging, and files with deployment-specific security requirements.

MEDIA & DISTRIBUTION

In-app capture and controls over sharing, copying, forwarding, and outside-file access.

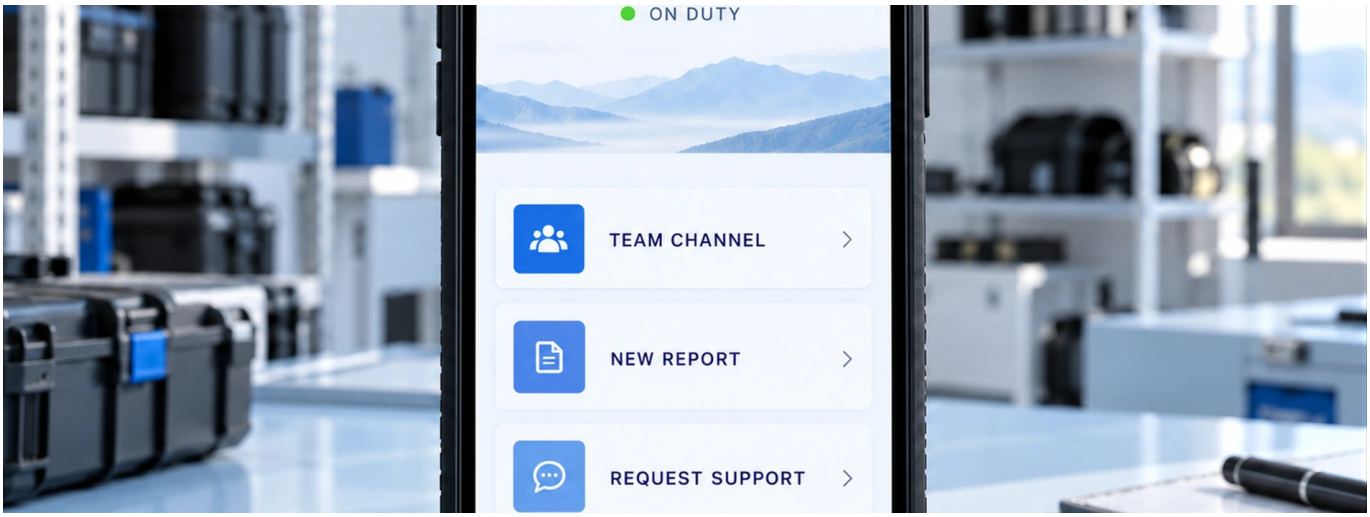

ADMINISTRATION & CONTINUITY

Central oversight of people, teams, permissions, updates, and resilience planning.

APPS & CONNECTED PRODUCTS

FIELD-READY TOOLS COMMAND-LEVEL AWARENESS

Mobile and command experiences support distinct operational roles within a configured deployment.

ILLUSTRATIVE PRODUCT AND ENVIRONMENT VISUAL

OFFICER & AGENT

Shift protocols, encrypted communications, in-app capture, GPS, and SOS workflows.

SUPERVISOR

Operational maps, geo-fences, team channels, broadcasts, and shift records.

CIVILIAN & TENANT

Configured reporting and help-request channels for residents, staff, visitors, and tenants.

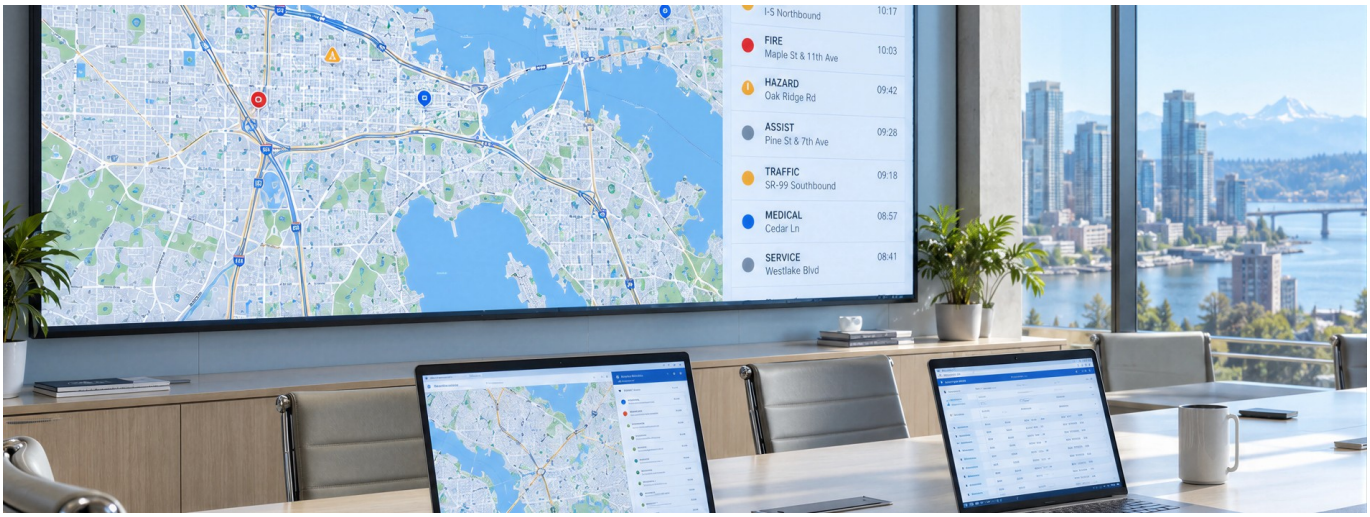

BRANDED EXPERIENCES

Scope iOS and Android workflows, white-label identity, and multilingual options.

AGENCIES & ENVIRONMENTS

CONNECTED TEAMS ACROSS ORGANIZATIONS

Support a shared view of events while preserving organizational roles and information boundaries.

ILLUSTRATIVE PRODUCT AND ENVIRONMENT VISUAL

LAW ENFORCEMENT

Patrol operations, field reporting, supervisory visibility, and task-force coordination.

FIRE & EMS

Share scene context, personnel locations, urgent alerts, and response updates.

GOVERNMENT & EMERGENCY MANAGEMENT

Connect departments and response partners through controlled channels.

INFRASTRUCTURE & SECURITY

Coordinate facilities, site teams, contractors, and responding agencies.

CONNECTED SYSTEMS

PLAN THE CONNECTIONS AROUND THE MISSION

Define integration scope around existing equipment, available interfaces, agency permissions, and deployment requirements.

ILLUSTRATIVE PRODUCT AND ENVIRONMENT VISUAL

CAMERAS & DISPATCH

Authorized video feeds and CAD or dispatch coordination pathways.

ROBOTICS & DETECTION

Patrol telemetry, sensor arrays, and specialized operational inputs.

WEARABLES & RESPONSE NETWORKS

Scope smartwatch pairing, discreet alerts, and location-sharing options.

DEPLOYMENT ARCHITECTURE

Review AWS-hosted SaaS provisioning, updates, access controls, and redundancy needs.

MONTHLY PLANS & DEPLOYMENT

PILOT
PROVE AND EXPAND

Choose a deployment scope, agree measures of success, and expand using lessons from the pilot.

ILLUSTRATIVE PRODUCT AND ENVIRONMENT VISUAL

PILOT | MISSION START

A focused deployment for one team or location, with onboarding and review.

AGENCY | OPERATIONAL COMMAND

A coordinated environment for agency-wide workflows, mission channels, and command views.

ENTERPRISE | UNIFIED NETWORK

A tailored multi-site or multi-agency scope with governance and integration planning.

CUSTOM MONTHLY PRICING

Request a quote based on users, workflows, integrations, and support requirements.

PREPARE YOUR BRIEFING

DEFINE THE MISSION FIT

A focused demonstration starts with the teams, information flows, and response requirements you need to connect.

ILLUSTRATIVE PRODUCT AND ENVIRONMENT VISUAL

TEAMS & LOCATIONS

Identify participating agencies, operational roles, sites, and expected user counts.

WORKFLOWS & COMMAND

Prioritize reporting, communications, mapping, alerts, and review requirements.

SYSTEMS & GOVERNANCE

Bring integration, access, retention, and deployment requirements to the discussion.
